To rate each account caption above, enter a 1 for Low, 2 for Moderate or 3 for High. High and Moderate risk accounts will move forward to the Process Risk Assessment.

Note: Agencies should rate criteria for all asset, liability, revenue and expenditure accounts. Risk ratings will vary by agency. Numbers above are for example purposes only.

Low Total Score of 8 or less.

Moderate Total Score of less than 12 but greater than 8.

High Total Score of 12 or greater.

To rate each account caption above, enter a 1 for Low, 2 for Moderate or 3 for High. High and Moderate risk accounts will move forward to the Process Risk Assessment.

Note: Agencies should rate criteria for all asset, liability, revenue and expenditure accounts. Risk ratings will vary by agency. Numbers above are for example purposes only.

| Low      | Total Score of 8 or less.                       |
|----------|---|
| Moderate | Total Score of less than 12 but greater than 8. |
| High     | Total Score of 12 or greater.                   |

Total Score of 10 or less.

Total Score of 15 or greater.

Total Score less than 15 but greater than 10.

To rate each process above enter a 1 for Low, 2 for Moderate or 3 for High. The Process Risk Assessment should be completed for all account captions with a total score of High or Moderate on the Account Risk Assessment.

Note: Pooled Cash and Federal Funds were intentionally omitted above for example purposes. See the Community College Financial Case Study for an example of the Cash Process and Location Risk Assessment. Processes and risk ratings will vary by agency.

#### Agency ABC Narrative

Fund(s): Consolidated Governmental

**Account(s):** Accounts Payable

Significant Process: Determine manual AP accrual amount

Significant Process Risk Rating: Moderate

**Supporting System(s) / Application(s):** NCAS AP Module

This document provides a description of the above Significant Process as of FYE 6/30/2012. Internal controls are *Italicized*, Critical Controls are **Bolded** and control weaknesses are underlined.

**Input:** Invoices received / approved August 1 - 15

Output: Manual AP journal entry voucher

July 31 is the cutoff for the flagged accrual process. The manual accrual amount is determined for the period August 1 - 15.

Invoices received or not approved for payment until August are reviewed by the Accountant III to determine if they were for services performed or goods received prior to June 30. The Accountant III makes copies of the paid invoices that need to be manually accrued and prepares an Excel spreadsheet listing the vendor, invoice number and invoice amount. To ensure that the spreadsheet is accurate, the Accountant III prepares a calculator tape of all invoice copies and verifies that it agrees to the spreadsheet. (MAP1) To ensure that all necessary accruals have been identified, the Accountant III then prints an NCAS report of all expenditures for the period August 1 – 15 and reviews the report to determine if additional expenditures should be accrued. (MAP2)

The manual accrual amount is recorded on a journal entry voucher with a June 30 effective date. The JE voucher, spreadsheet, NCAS report and all supporting documents are given to the Controller who reviews the documentation and approves the voucher. (MAP3)

**Prepared by:** T. Smith

*Interview Date:* 04/12/2012

See the Community College Financial Case Study for an example of how to document an issue noted while writing the narrative.

#### Case Study - Financial Risk Assessment

#### **Agency ABC**

Narrative (continued)

Note: Label all your controls with a control reference number in the above narrative. This control reference number will be cross-referenced throughout the remainder of the templates.

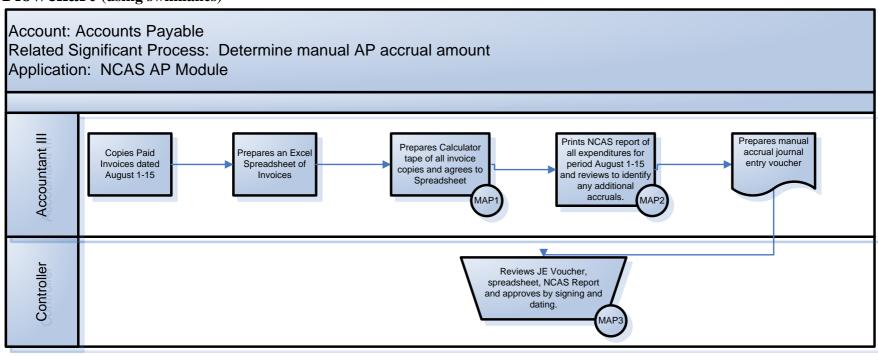

A critical control is a control that will prevent or detect an error in the event that all other controls fail. If there isn't a critical control in the process you may need to test all the controls in your narrative. If the critical control encompasses the prior controls you will only need to test the critical control and not the individual control.

Refer to the Guidance Manual and/or Case Studies for an example of how to complete the narrative template. The narrative should be for the process in place at the end of the current fiscal year. If your Agency's processes are changing during the fiscal year, document the new process that will be in effect at the end of the current fiscal year, rather than the old process.

Narratives for Federal Funds-Determine amount to draw down; Personal Services/Employee Benefits-Set up new hire masterfile or make changes to masterfile; and Personal Services/Employee Benefits-Time entry and approval will also need to be completed. These were intentionally omitted from the case study.

#### **Agency ABC**

#### Flowchart (using swimlanes)

Accountant III reconciles all invoices to excel spreadsheet.

Accountant III prints and reviews NCAS report for any additional accruals.

Accountant III forwards the JE Voucher, spreadsheet, NCAS Report and all supporting documents to Controller who reviews the documentation and approves by signing and dating.

*Note:* A flowchart can be completed instead of, or in addition to, the narrative.

### Case Study - Financial Risk Assessment

# Agency ABC Walkthrough

Fund(s): Consolidated Governmental

**Account(s):** Accounts Payable

Significant Process: Determine manual AP accrual amount

Significant Process Risk Rating: Moderate

**Supporting System(s) / Application(s):** NCAS – AP module

This walkthrough assists in documenting our understanding of the design of controls. We are documenting the procedures performed, evidence obtained and conclusions as to the effective design of the underlying controls and whether the controls have been implemented. We will select a transaction that has occurred within the current Fiscal Year and walk through all controls listed on the narrative template (template 02).

Walkthroughs should be performed by someone who is not ordinarily involved in the process, and if possible, should be performed when the process occurs. A walkthrough should be performed for all controls identified in the narrative, both critical and non-critical.

Control Owner's Title: Controller

**Date of Walkthrough/Interview:** 04/19/2012 **Walkthrough Performed by:** T. Smith

•

Control Description and Control Reference #: The JE voucher, spreadsheet, NCAS report and all supporting documents are given to the Controller who reviews the documentation and approves the voucher. (MAP3) *Note: Remaining controls intentionally omitted for example purposes*.

**Transaction Selection:** JE voucher number #########

**Procedures to Perform:** We will review JE voucher ######## to verify that the voucher total agreed to supporting documentation and the voucher was approved by the Controller.

**Results:** We verified that the voucher agreed to the Excel spreadsheet and calculator tape. We also noted that the Accountant III's signature on the 'Prepared by' line and the Controller's signature on the 'Approved by' line. Notes and tickmarks were written on the NCAS report, indicating the report was reviewed. (See w/p MAP.1 for copies of supporting documentation.)

**Conclusion:** The control was in place and operating effectively at the time of the walkthrough.

Note: This walkthrough will assist you when the test of controls is performed. During the walkthrough, if a control does not appear to be in place for the item selected, look at a few additional items to determine if the error noted for the first item was an isolated incident. If the issue is recurring, it is not necessary to document a test plan and perform testing. The issue should be added to the Issue Summary Log. See the Community College Financial Case Study for an example of how to document an issued noted while performing the walkthrough.

Refer to the Guidance Manual and/or Case Studies for an example of how to complete the walkthrough template.
